Comment MLW: This fall mainly in the category of sour grapes. As matter of fact Alberti put on (according [] [] a very second rate performance in handling Hans KUKOWICH and WEBER during the [] case. This may be purely his own reaction to Augsburg. [] is not known to be unduly charitable in his assessment of ZIPPER. Be that as it may, Augsburg displays little balance in these views. I doubt very much whether he really knows enough about the problem to be taken completely seriously.

The important question: How symptomatic of the overall ZI PPER view is this? Does this represent [Klausner] views? How clear is [Klausner] Augsburg from a security point of view? Has the recent MOB lead on him been clarified? Has anyone ever spent much time with him and then written an assessment? Is he really such an expert? On communism or the RI S? If the latter, where did he get his info?

This should not be dizzied. Too raw. Too

unrevaluated
